EFCE calls for nominations in Process Safety

The European Federation of Chemical Engineering and its Working Party on Loss Prevention and Safety Promotion in the Process Industries call for nominations for two Awards in the field of Process Safety: The **2022 Excellence Award in Process Safety** and the **2nd Lifetime Recognition LPS Award**.

The call for nominations is open for the **2022 Excellence Award in Process Safety** to be awarded at the 17th International Symposium on Loss Prevention and Safety Promotion in the Process Industries - Loss Prevention 2022 which will be held in Prague, Czech Republic on 5-8 June 2022 (website: www.lossprevention2022.org/).

The triennial Excellence Award in Process Safety recognises a PhD thesis published in the preceding three-year period, which demonstrates an outstanding contribution to research and/or practice in the field. It consists of a certificate, a cash prize of EUR 1,500, and a travel grant (not exceeding EUR 500) to attend the Loss Prevention Symposium, where the award will be presented.

Nominations may be submitted by PhD supervisors at a PhD-awarding institution in an EFCE member country or Members of a national or regional member association of EFCE. The nominated PhD thesis must address a topic relevant to the field of Process Safety and must have been accepted, defended and the degree awarded between January 2019 and December 2021.

Further information about the nomination procedure, eligibility, and supporting documentation and the online submission form can be obtained from the EFCE website at <https://www.efce.info/ExcellenceAwardProcessSafety.html>

Secondly, the call for nominations is open for the 2nd edition of the **Lifetime Recognition LPS (Loss Prevention Symposium) Award**. The Award was established in 2018 in recognition of outstanding contribution to safety and loss prevention research and practice to a senior researcher, academic or industrial engineer belonging to one of the EFCE member countries throughout his/her career.

The 2022 Lifetime Recognition LPS Award will be presented at Loss Prevention 2022 in Prague, Czech Republic, in June 2022.

The award which is sponsored by the local organiser of Loss Prevention Symposium consists of a plaque or trophy, an EFCE certificate and an invitation to the Loss Prevention Symposium where the award is officially presented to the winner.

Further information about the nomination procedure, eligibility, and supporting documentation and the online submission form can be obtained from the EFCE website at <https://www.efce.info/LifetimeRecognitionLPSAward.html>

The closing date for nomination for both awards is **30 November 2021**.

About chemical engineers

Chemical, biochemical and process engineering is the application of science, maths and economics to the process of turning raw materials into everyday products. Professional chemical engineers design, construct and manage process operations all over the world. Oil and gas, pharmaceuticals, food and drink, synthetic fibres and clean drinking water are just some of the products where chemical engineering plays a central role.

About EFCE

Founded in 1953, The European Federation of Chemical Engineering (EFCE) is a non-profit-making association, whose object is to promote co-operation in Europe between non-profit-making professional scientific and technical societies in 30 countries for the general advancement of chemical engineering and as a means of furthering the development of chemical engineering.
